General Report Comments: Upon arrival at the property, the owner's son opened the gate for me after I explained to him the reason why I was at the property. They own 2 dogs, as detailed which appeared to be in acceptable physical condition. Water and shelter were adequately available. When I asked them about the complaint we received they claimed that they were not aware of the incident as they have a separated yard (from back to front). I advised them to always put the dogs in the backyard whenever they are driving out to avoid the dogs running into the streets. I also advised them about sterilizing the dogs but they said they still haven't decided yet but they will contact me when they are ready. No violation of the Animals Protection Act was found.
