General Report Comments: I made it to our appointment as arranged with the owner to meet. She owns 2 dogs 1 of which was adopted from the SPCA. The dogs appeared to be in acceptable physical condition, fresh water and shelter were adequately available. She said she was working from home but currently babysitting her grandchild for her daughter. She was also surprised by the complaint saying that dogs will always bark when seeing something or someone at the gate. There was no violation of the Animals Protection Act during my visit.
