General Report Comments: I finally found the owner of the property and dogs who was rather impolite saying he's getting tired of all the Warning notes that I leave on his gate. He got really impatient with me seemingly in a hurry to get somewhere with his kids in a car. He did admit to having the dogs running out and sniffing along his walls outside whenever he's driving out but said he would always instruct for their return back inside the yard. He owns only 2 small-sized Jack Russell type dogs which were in acceptable physical condition. There was a painted wooden medium dog kennel with feeding bowls (one with potable water) next to it. He said to me that I should stop harassing him for 'nonsense' because his dogs are not always out as they're being made out to be. He didn't want to give any of his details saying I'm wasting his time because he let me in his yard now asking for too much and he drove off. There was no violation of the APA except for the alleged by-laws. The owner may have been unwelcoming but he appeared to have minimum requirements provided for dogs. Matter concluded
