General Report Comments: I met the owner's daughter at the gate and asked to call her parents for me. She went along to call her mother who opened for me. They were owning 2 dogs and a cat. Mrs Erwee stated that they had just moved into the house and were still sorting out their belongings. She showed me her pets' living conditions, with potable water, food bowls and the indoors as their shelter provided as well. She also showed me the chicken mesh that she bought to put up on the gate to prevent the dog from escaping out of the yard. Their pets were not sterilized but I offered to get them sterilized but she said her budget would only allow her to do so at the end of the month. There were no violations of the APA was found.
