General Report Comments: On arrival at the property, we (John and I) found the owner about to leave for work. We also the dog on tied up to a tree with a leash and a collar. She said that the reason the dog was tied up was because they were cleaning and had someone painting the interior and the dog was making a mess out of the paint and making the painter uncomfortable. She said that there is a caretaker on the property who owns dogs one of which was not getting along with hers and was told to keep her dog away from the caretaker's. She was issued with a warning not tie up the dog in an unacceptable manner that may cause suffering to the dog. I offered sterilizing the dog but she said she was not ready yet but she will call when she is. Matter concluded for now
