General Report Comments: At the property, a fellow tenant of the owner's opened the gate for me pointing me to where the is kept. There was a bitch with 6 one-day-old puppies nursing from her kept in a rondavel steel cage. There were a dog food bowl and a lunch box filled with water. The cage was found locked. I asked the owner's contact details and got a hold of him. I phoned Mr. Abayomi Oduba who said he was actually in his room at the backyard. He came to talk to me about the complaint. He said that the puppies were 9 in total and 3 died because "Scooby" was not sure what how to handle her birth releasing the puppies at random places but he had to help her through it. He said he locked the dog in the cage provided a blanket so she can feed her young. The cage was not tidy with boxes on the floor and waste that was not removed. I told him that it was not a suitable place for the dog to be kept and recommended a shade cloth to wrapped around the cage for warmth for the newborns. The landlord, James was not approving of Mr Oduba keeping these puppies on his property but they both spoke through the phone and agreed to still keep them there. I told him Jaes to keep an eye on the situation and if more puppies die he must inform me. I issued him a written Warning to rectify these concerns within 7 days. To follow up in 7 days
