General Report Comments: I arrived at the house and met the owner, Kalije Mnasi who did give me the details regarding the dog in question. He claimed that he was told that dog was very sick and had to be put down when bringing it to the Sandton SPCA Clinic. He then took the dog to the Orange Grove Vet where he was told he would have to pay about 10 grand for the dog to get treatment. He told them he could not afford the fees and was then referred to the Sandton SPCA and The Society for Animals in Distress. He then took the dog to the The Society for Animals in Distress in Midrand where the dog was monitored for a few days but later euthanized. He assured me that they will give me all the details if I phoned the vets. He also owns an adult Pitbull bitch that he keeps in the enclosure when he has guests in the house because the dog tends to be overprotective of the yard. The bitch was provided with a basement as shelter, clean water and food provided. He did say that he didn't want to lose his dog without even trying to treat the dog. I offered to help him sterilize the bitch but he said that he still wanted to have a litter of puppies before he will consider spaying her. I even offered sterilizing with the benefits of vaccinating her for free but he said he will do it in future. I left a my contacts with the owner and educated him on the principles of sterilizing dogs. Matter concluded
