General Report Comments: When I rang the intercom the landlord said she was going to get her tenant and call them for me. The owner, Prince Yakinni, then came to tend to my visit. He took me in to his cottage to show me his dog. Their dog was found tied to a tree with a leash to restrain the dog from allegedly being naughty and for bruising their child. No potable water and adequate shelter provided for the dog. The dog was still young with high levels of energy and testosterone. The dog sleeps indoors with the owners because there was a dog bed inside the house. The cottage was independently built and walled around at one corner of the yard for the tenant to have their own space away from the main house. They bought a small dog Jojo wintergrass kennel that the puppy outgrew but he said he will exchange it with the proper with his purchase receipt. I advised them to perhaps enroll their puppy to a puppy training nearby at the Gillooly's Farm or any puppy class to get the puppy to a proper routine. I wrote a warning for tying up the puppy and to provide potable water at all times. I offered sterilizing the dog for him and made a booking on Thursday the 20th June 2023 but I'll be fetching the dog on the 19th June.
