General Report Comments: At the main gate, the security guard from 24/7 Security opened the gate after I've explained the reason for my visit. I proceeded to the unit (later confirmed to be unit 8), where I found no one but was able to see the dog kept in the backyard. It was an adult, black, male Pug dog clad in a dog jersey provided with an adequate, small wooden kennel, toys and dispensing feeding bowls. The water bottle and dispensing bowl appeared to be empty during my inspection when viewing from the out of the yard. The dog appeared to be in acceptable physical condition. I wrote the owner a warning to contact me within 24 hours urgently.
