General Report Comments: Upon arrival 2 puppies were confined in an aviary which is approximately 3 metres by 2metres . The other 3 dogs were confined in an area which is approximately 20m by 20m and 1 was confined also in a space which is 20 metres by 20 metres. The African grey parrot was confined in a cage . I had to give an owner a warning that they are not supposed to confine their dogs in an aviary or small space. The animals needs to have freedom through the property. The reason for making cages is that they are Moslem and the male people are not allowed to be touched by dogs because they pray everyday. The female children they love the animals.
