General Report Comments: I found the owner's son at the house and he said the his father was not home. i asked him for his phone contact and he gave it to me. I phoned the owner, Mr Alex Zoa who gave consent to enter the house and found 3 dogs on the property. They all had access to water and a car garage provided as shelter. The garage was dirty with a pieces of sponges destroyed by the dogs. One of the dogs, a white and tan, female, Jack Russell named "Rusty" appeared to have a skin condition and was scratching a lot. There were no puppies duiring my inspection as I was told that they were all given away. I issued a written Warning to take the dog to the vet and ensure the place is clean . To follow-up on Tuesday the 5th of Dec 2023
