General Report Comments: Upon arrival the dogs were inside the property. 3 dogs were observed. They appeared to be in good condition, they were not underweight. I could not see the dachshund. The complainant told me they found the dachshund on the street and they put it in the garage. My colleague, trainee inspector John Mokwana told me it appeared to be in good condition. One of the neighbour who did not want to mention her name told me that the owner comes everyday at night and goes in the morning. The dogs are not abandoned. The concern was that the dachshund was able to come out through the pallisade fencing. I had to leave a warning note for the owner to contact me and also close with the fence.
