Comments: The owner's mother, Lindsay opened the gate for me. She told me that her daughter was not available she was out to walk the dog In question. She was quoted as saying that the dog did not get injuries but small scratches on the face and they used antiseptics to clean them. She said we should have made an appointment before meeting them and not just show up at their door. I asked her to send us the photos of the dog and she said would do so.
