General Report Comments: According to the helper, the owner was not home at the time of my arrival, and I had to ask the helper to contact the owner to inform them about my visit. The owner was on his way home and was just around the corner. The owner finally arrived and took me in. Mr Roland Goddard owns 26 special-bred chickens and 2 dogs. 13 Easter egggers, 13 Orpington chickens, a 4-year-old, white, male Dogo Argentino "Levi" and a 6-year-old, brindle, male Boxer "Loki". All animals on the property appeared to be in acceptable physical condition. They had shelter, accessible water and food at their disposal. The chicken enclosure was clean and enriched. I informed the owner that he should keep only 10 poultry as prescribed by the municipality bearing in mind that roosters are noisier than hens. He said he would get rid of the chickens through an auction because they are expensive and he was not will to let them like that If can give 6 weeks to work on it. A written warning was issued
