General Report Comments: I went to the house and found 5 dogs and 2 puppies(6 weeks of age). They had a basement for a shelter at the back and a covered patio in front. The owner does have food although insufficient. He admitted to the puppies sneaking through the gate but he's always patching all the gaps. He was using a light-duty chicken mesh wire but I advised to get a stronger mesh wire to put the gate.

I persuaded him to surrender the dogs but I managed to get 4 dogs from him.

The 5th dog (a female, b&w Pit) belongs to his friend whom we couldn't get a hold of him. I told him to speak to his friend about getting the dog sterilized and including the puppies that he then decided to keep. He said he can't afford our sterilization fees but will be willing to get his puppies sterilized when they are of age. I still gave him some soft food and treats for the puppies.

All 4 dogs were surrendered to Sandton SPCA and I will monitor the puppies as they grow. Do share the pictures of the dogs you saw yesterday if taken
