General Report Comments: 3 dogs observed in the property, the Pitbull had some swollen face and some bite wounds. The owner told me that his grandson Muzi Motsumi took the dog out for a walk and a stray dog came and attacked the Pitbull. They did not know where the dog came from. I asked if they took the dog for treatment and they told me they have been treating the dog with Magnesium. It happened 3 days ago. I had to ask her to surrender the dog and she agreed to do so. I had to also give her a warning note
