General Report Comments: Mrs Taeilib granted to examine the living conditions of the dogs. They only own 4 dogs (with one being the only female). She said that they were only having a friend's dog over while they were away on holiday and now they came back to take them. They were also left with only one puppy that they had already given away to someone. The dogs had access to clean water and adequate shelter. They also had a satisfying body condition score. I managed to convince them to get the female spayed and I immediately loaded the into the vehicle.

ACTIONS

OTHER Took the dog to be admitted for sterilization in our clinic
