General Report Comments: Upon arrival the dogs appeared to be in good condition. No wounds or fighting scars were observed . I spoke to the owner and she denied that her dogs don't fight each other. I had to educate the owner that if the female is on heat the male dog will fight each other and she told me that one male belongs to her friend and she is returning it back next week. I also educated her regarding sterilising her dogs and she agreed to sterilise the female only.
