General Report Comments: At the property, I met with the owner Mr Hansheng Yang who granted me access to the house where I found 2 dogs. An adult, male German Shepherd Dog(GSD) and an adult, male St. Bernard. Both dogs The GSD was persistently shaking its head out of irritation beside any flies getting on the dog. I pointed it out to the owner and Mr Yang how serious the condition may turn out to be if left untreated. He agreed to have the dog taken to the vet tomorrow. A written warning was issued to him. To follow-up tomorrow
