General Report Comments: Upon arrival one dog was observed in the property. The dog had a lump which had burst. I asked the security guard and he told me that he bought a ointment from the chemist but the dog is getting worse. I had to give him a warning to take the dog to the veterinary. The security guard works for Night guard security and he told me that he found the dog there and his boss buys food and everything for the dog. I had to give the security guard company a warning.

After I gave him a warning the owner phoned and he told me the dog is not for the security company. The previous employee is the one who brought the dog because he found it as a stray. He promised to take the dog to the vet.
