General Report Comments: A follow up inspection was conducted a week earlier do to a complaint that we received that the horses are over-ridden on weekends which is against the instructions given by a Vet.I was unable to proof the allegations however after communicating with the complaint and looking at the horses the condition dropped again.I observed a grey horse,bay, dark bay underweight.The bedding was wet,there are two wooden stables at the back which needs repairs these concerns were raised with Gilbert to attend to.I contacted Senior Inspector Jacques from NSPCA to assist me in conducting an inspection and give his view.A warrant was obtained a follow up was carried out,we had a meeting with the owner of the property and owner of the horses.The issue of the bedding were raised and feeding of the horses and to fix the stables.Jacques indicated he will write a warning and send to him we will conduct follow up together.The Vet is scheduled for 18/0/10/2024 on follow up.I contacted Dr Gordon who confirmed that she had a follow up check she will provide the report to us, case still pending.
