General Report Comments: This chicken hawking site is in operation illegally despite my warnings. 26 chickens were held in cages while some are being selected to be slaughtered for customers. The holding cage is made of 4 layers 3 of which did not have potable for the chickens. Feeding troughs were properly installed for the chickens and they could drink easily after my advise to do so. One of the chickens had an eye infection that was being treated but I was told that the chicken will be slaughtered. To conduct routine inspections. See checklist for more details
