General Report Comments: There were 2 guard dogs resting in their holding cages after their night shift duties. The cages were fairly cleaned and cleared of any dirt, hazards and faeces, but there was a bag carrying dog faeces a little further from the cages that I told them to discard accordingly to avoid flies. Water and kennels were provided in both holding cages. The guard dogs appeared to be alert and fit to carry out guarding duties. I also enquired about their documents in respect to the dogs performing their duties, but found an expired PAPA license and no DH certificates. I advised Mr Nkomo to request copies that will remain in their guard room and at every guarding site they contracted to operate. No violation of the APA but there were offences of the PAPA. Routine inspection to be carried out
