General Report Comments: I requested the zookeepers for the Farmyard section, and Mr Richard Shirinda and Mrs Werner Masemola tended to me upon my arrival. I found 3 horses in the yard housed in 3 separate stables. There was no bedding during my inspection, and I was told that they don't use bedding in warmer seasons. Stockpiles of sawdust was kept in one of their equipment rooms The horses had adequate feed in stock that features, hay grass, Lucern, cubed concentrate and potable water. The horses had an acceptable physical body condition. The horses appeared to have a overgrown hooves without being shod. Mrs Masemola stated that the horses were last hoof-trimmed in July 2025 and were never trimmed/filed since. I was told that they had placed a Purchase Order (P.O.) for the trimming of hooves which might take a while to be processed. I requested the P.O. to be forwarded to my email and Mr Shirinda promised sent such a Purchase Order. More details of the inspection are included in the recommendations sent to the zoo. To follow-up in 7 days
