Comments:	I went to meet the person of interest, Mrs Angela Penangayi, who accounted for the version of having had motion sprinklers installed, and that is how the cat got soaked with water. I told her she may not be giving me misleading statements because her actions are a serious offence in respect of animals . She finally concluded that "let's rather go for what they told me", and was no longer willing to admit to her actions. I told her it is not acceptable to terrify any animal in my written warning that she signed as an acknowledgement of her actions. Mrs Penagayi revealed to me that she had a fear of cats, but I still offered to her to volunteer at an SPCA or a reputable animal shelter to help overcome her fear . She said she will consider the idea. Warning #Y 2725 was issued to her for future purposes. Matter concluded
