General Report Comments: I found a couple of rabbits and a dog when I arrived at the Art Gallery and Coffee Shop . The rabbits were place in a built-up wooden (1,2 high x 1,2 wide x 2 m long) hutch secured with a chicken mesh wire. The hutch was placed in the heavy draughts of the Munro Viewpoint . A small tray of water was provided for drinking, and a few bouquets of weeds to feed on. They have rabbit pellets as well for feeding. The walls of the hutch were not covered for windy conditions, nor roofed for any rainy or stormy weather. Mr Shezi said he got the rabbits to keep as pets for his children. I advised him to do more research into keeping rabbits as pets, as he might consider sterilising at least one of them. I issued him with a warning to improve their structure in a manner which will protect them from weather elements within 48 hours
