General Report Comments: On my second visit, the horses' weight had slightly improved. The manure was removed in some but still not removed others. Flies were still infested. Maintenance was still not done on the stable facility. Mr Lahree still did not successfully summon a vet to check up on the ailing animals, with the excuse that the vet keeps postponing his visit - 2 horses; stallion underweight a mare with abnormal movement of hind legs, and a ram of sheep with swollen lower jaws. Shelter for the sheep was erected but still in progress of being built. I instructed the owner to get everything sorted by the 14th January next year.
