REPORT

Access Granted By: SIBUSISO & CONNY
Comment:
Were Animals Seen on the Property: No
Relationship to Property Owner: Child/Family Member
Captured By: GODFREY MNGUNI 2026-01-20 18:44

CHECKLISTS

General Report Comments: The individual on record Sibusiso "Buda" turned out to be just the enthused dog walker for the owner and not the actual owner. He claimed to have been apprehended in Greenstone on his way to a so-called 'Dog's Day' taking place in that area. He got me in contact with the actual owner. The claimed dog belonged to Mr Victor Mothowagae who reside at the address : 72 – 17th Avenue, Alexandra who claimed he was unaware of the venue for the event as the boy only told him about 'Dog's Day' and he wasn't detailed about it. I met the owner's wife Mr Conny Mafa, (owner at work at the time of the inspection) who granted me access to the yard. The dog resides in a fairly spacious, paved place with a section only designated to the dog with adequate running space. The staircase underside was used as the dog's shelter , and I was assured that no rainwater runoff on the shelter floor, but I recommended an elevated, comfortable bedding/resting board. There was a chain fixed to door post of the shelter that is said to be occasionally used when hosting some guests over. I persuaded them to surrender the chain to me to allow the dog more freedom of movement while I suggested an extra mini camp to enclose the dog in for instances of having visitors home. The dog appeared to be provided with the minimum requirements needed. I offered the owner to neuter the dog, but he showed no interest in doing it due to an alleged previous experience of one of his dogs that died after the procedure at the Sandton SPCA Clinic. He stated that he has no intentions to breed with his dog, nonetheless. I discourage the idea of youngsters walking his dog on his behalf as there may be unforeseen incidents that may arise from it, and he did promise to refrain from it. No objections against this owner to lay claim of his dog back.
