General Report Comments: The dogs were found roaming freely in the property. No welfare concerns were observed. I spoke to the owner about his dog biting members of the public on the street and he told me that his dog always inside the property and the gate is always closed. He said that one of the family members might have left the gate open and that when the incident might have happened.i had to give a warning so that he show the rest of the family members that his gate needs to be always closed. I aso educated him with sterilising his dogs and he told me he is noot interested.
