General Report Comments: The Pitbull-X was shot through the eye and was taken to st Johns Vet for treatment.
Inspector Petros Simamane and myself went to meet with the owner and he told us that he had intruders in his property and he called A.D.T security to help him.
He said the security guard entered his property and the dog was free inside the property and when the dog saw the security guard it started barking then the guard shot the dog.

We also met with A.D.T supervisor Mr Dube he said they are still investigating the matter .
He said their security guards are trained to deal with Dog behavior and to handle properties with animals.
We educated Mr Dube that they must do regular dog training courses to the guards on Canine body languages so that no animal must suffer any unnecessary pain and cruelty .
He said they will start working on these programs to avoid any future incidences happening to the animals.
