General Report Comments: On my arrival the dogs were inside the property.  
The owner showed me the dead male tan puppy after i asked to see the puppy.  
I brought the puppy to spca clinic for post moterm.  
There is another dog on the property with eye problems entropion but it has got eye ointment chloramphenicol from Maryvale Veterinary clinic.  
I went to see the Vet at Maryvale Veterinary Clinic and Dr Graeme Young confirmed that he advised the owner of the dog that a surgery was required for the dog.  
Follow up will be done to check the dog as the eye ointment is not going to last long.  
We waiting for the statements from the 2 witness then to open the case
