CHECKLISTS

General Report Comments: Upon arrival I met Nomsa who granted me access to enter the property.

I shared with her I came to do a follow up inspection. She granted me access and told me they have moved the dog to the rural area.

I then went to the back where i saw a kennel and the living environment is clean and hygienic. There is no sign of the dog on the property.

With these findings I strongly believe the case can be closed as there is no contravention of the Animals Protection Act 71 of 1962 and there is no animal on the property.
