General Report Comments: On this Inspection i went with field officer Philane as he wanted to learn .

We arrived at the main gate and hooted . A woman came to open the gate and granted us access to enter the property.

I shared a nature of complain and she was in tears. She then showed us where the dog in question is kept and it was confined in the garage. The dog in question was observed in a good condition and clinically alert. The dog dog was confined in a space that i believed was not suitable for a large breed. The woman is Mrs Thedy (Thabiso's mother)

There is shelter where the dog was kept and the living environment is clean.

I then questioned why the dog is confined in the enclosure and she stated that the dog managed to escape and whoever that tried to confined it was beaten by the dog.

The dog doesn't escape is someone is home. I then instructed Mrs Teddy to release the dog immediately anf she complied. The dog was roaming freely when we left the property.

I issued a warning

-To untie/unchain animal/s immediately to roam freely on property or provide a running chain within 7 days

-To keep your animal/s inside your premises at all times.
