General Report Comments: Upon arrival I entered the property as the gate was wide open. I went and knock on the door and a woman who introduced herself as Tasmeen open the door .

I shared a nature of complain with her and she granted me access to enter the house. The dogs are kept in the backyard and we walked to the backyard. Her husband was present during this inspection.

I went to the backyard where i observed a mother dog that was slightly underweight and at this point it was clear why she's underweight as she's feeding 6 puppies. I requested to see dog food and Tanseem showed me.

She tried making an excuse that she's been fostering the dog for 4 months. I explained the definition of the owner and she understood that she is the owner.

No puppy was observed with the injury and all the puppies appear to be in a good condition. The dogs have access to portable water and adequate shelter. The living environment is clean and hygienic.

I then told the owner I'll come back in a months time to see if the mother has gained weight and I made it clear that if she hasn't gained weight. She must consider to surrender the dog or I'll take lagal actions.

ACTIONS
