ANIMALS IN GOOD CONDITION	Yes
VETERINARY PROBLEMS / HEALTH CO	No
CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: Upon arrival i met Msizeni who is a gardener and i shared a nature of complain.

He stated that the dog that is kept in an enclosure is an escape artist. However I told him the dogs was roaming freely and he released both dogs.

I then requested to speak to the owner. He contacted the owner as he was not home during the time of an inspection.

I spoke to James and he tried making an excuse that the dogs at the SPCA are at the kennels and he is doing the same thing. I made it clear to him that SPCA is a registered pound. The dogs in the kennels soon will be adopted out and he understood. The enclosure is adequate size and Msizeni was busy cleaning the enclosures upon my arrival.

The dogs are clinically alart and they appear to be in a good condition. I noticed one dog has fly strike that is healing already on the ears. . I then requested to see medication and Msizeni showed me medication that is used on the ears. The dogs were roaming freely on property and has access to shelter. The living environment is clean and hygienic.

I issued a warning

Ensure the dogs are roaming freely at all times and failure to comply will result into further action taken against you in terms of the animals protection act 71 of 1962. You can surrender the dogs to Kloof and Highway SPCA.

When i left the property the dogs were roaming freely and i believe the case can be closed

NFA.
