General Report Comments: Upon arrival I hooted and to my surprise the someone came to the gate. He introduced himself as Isaac and he is looking after the house while the owner is not home.

Isaac is the caregiver of the property when no one is home. I observed a dog named Bruno and it was clinically alert. The dog is roaming freely on property and it in a good condition. I then walked closer to the dog as i observed it has flystrike but the dog ran and decided to hide in a kennel. The kennel is provided so the dog can be protected from all weather elements.

I then questioned about the flystrike however he told me they are treating the wound. I requested to see medication and he went to the house. He then came back with the medication that is used and adequate food is provided for Bruno.

To follow up in 2 weeks to see if there are any improvements on the ears.
