General Report Comments: Upon my arrival I was met by the owner.
There were one adult dog and 8 puppies of 6weeks.
The mother dog appeared to underweight because she was feeding puppies I advised the owner to start feeding the puppies solid puppy food and give mom also puppy food .
I spoke to her about sterelisation and surrendering the puppies to us but she said the puppies are going to new home and she was willing to surrender the mother dog.
On 22 january the mother dog was surrender.
There were still 8 puppies left and I advised her about vaccination and deworming.
I will go back in a month time to check .
