General Report Comments: Upon arrival i hooted several times and the old lady came to the gate.

I shared a nature of complaint and she told me to wait. The property is separated and she shouted Antie while i was standing at the gate.

I then went to a 2nd gate. That where where i met another old indian woman and i shared the nature of complain. She told me the dog was taken to a veterinarian and i explained that based on the information we received. The owner refused the dog to be euthanazed and will take the dog to a private veterinarian for 2nd opinion.

She then called Camilla to come to the gate. I then met Camilla and shared why i came to visit the property. Camilla had a lot to say , all the negatives regarding the SPCA and i tried to explain the best i can to make sure she is calm. I explained to her that im following up on a dog that she stated she will take to a private veterinarian for a 2nd opinion. She then told me that who said they dont afford a private vet and SPCA is all about euthanazing animals . I replied that i dont know their finances and i came to follow up on the dog. Im also here to find out which veterinarian was this dog taken to or will be taken to.

She then told me the dog will be taken to Parlock vet in Newlands. I then contacted the veterinarian to confirm and she asked regarding the information i have about the dog. I shared that information with a veterinarian and she stated after assessing the dog then she will make a decision.

I observed the dog in question roaming freely. Having access to adequete shelter and water. The living environment is clean and hygienic. I tried to convince them to sign the dog but they refused

I issued a notice to comply
As discussed and agreed upon.
The dog in question will be taken to Parlock Veterinary clinic .
