General Report Comments: Upon arrival i saw the puppies in the road that we received complains about.

I tried to confine them but they quicky ran to into the property. The owners have tried to fix the fence and these puppies manage to find a way to get out.

Two puppies were observed slightly underweight and they have big tummies . I explained to Leta that this is a sign of worms and the puppies must be dewormed. Two adult dogs on the property appears to be in a good condition and clinically alart. The dogs has access to adequete shelter and portable water is seen. The dogs are roaming freely at the property.

I requested to see dog food. Leta showed me a bag of pellets.

I issued a warning

-Deworm your animals within 7 days

-To keep your animals inside your premises at all times .

It has been brought to attention that someone was seen hitting the dogs. If we should receive any evidence supporting these allegations further actions will be taken in terms of the animals protection act 71 of 1962.
