General Report Comments: Upon arrival i hooted and shouted but no one came out.

It seem no one is home. The dog in question was observed and it appears to be clinically alart. The skin problem has became way better compared to the first visit. The dog had access to adequete shelter and i could see a water bowl from a distance. The dog is roaming freely on property.

The living environment is clean and hygienic and i strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
