General Report Comments: Upon arrival i met Sifiso and he stated that he knows his brother burnt the dog. He further stated that he works in a firm that is in New Germany that sells chemicals as a security.

I questioned him if is there anyone who saw his brother burning the dogs with a chemical and he told me that no one saw him. He claims the neighbor saw the rolling on the floor coming from the bottom of the road and they suspect his brother looking at the dog skin. I told him that we dont work on allegations when it comes to the law and he must get his facts straight.

The trap was set as the dog was suffering based on my observation however . I couldnt catch it and i tried everything in my powers. I manage to catch the dog on 23/08/2025

It was collected by Petros Simamane.
The dog was put to sleep to stop the suffering

On 25 i went to checkup the findings of the veterinarian. Dr Mike stated the burn mark is no acid but it is from boiling water.

I strongly believe the case can be closed. The findings of the veterinarian are clear that the owner just suspect his brother with no evidence. Case closed until further notice.
