General Report Comments: Upon arrival i met Nonhlanhla she granted me access and she refused that i take any photo. Stating that her husband is not around

She seemed so angry and added that neighbors dont wanna see her at peace. Last time dog went outside and she had to leave work to confine her dog on the road as the property is not adequately fenced. The dog was observed clinically alart and it has been tethered with a rope about 7 meters long. She releases the dog when the kids are home as they play with the dog. The dog has access to adequete kennel and water is provided

The kids release the dog while i was exiting the property to play with him.

I strongly believe the case can be closed there is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
