General Report Comments: Upon arrival i Khrishna and shared a nature of complain.

He granted me access to enter the property. Two pitbulls were observed in a good condition and clinically alert. The property is well secured and the dogs have access to shelter. The dogs also has access to the house at all times and the living environment is clean. The dogs has access to water and they are roaming freely and Khrishma told me that the complainant was swearing at him yet his dogs never go out of the gate.

I then went to the complain since i admitted her dog for treatment. To my surprise she stated that she doesnt know where the pitbulls who attacked her dog belong. She thought the dogs belongs to number 26

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
