General Report Comments: Upon arrival i hooted and it appears no one is home.

The complainant came to me and i requested to look at the dogs from his property. He granted me access to enter at 61 Thole Street.

I observed the dog in question tied to a steel pole that is used as washing line
The dog appears in a good condition and clinically alert. There is no water provided and there is no shelter provided for the dog in question.

The dog is on a static chain of about 1.5 meters as the chain is tangled.

Two other dogs on the property are roaming freely and they appear to be in a good condition .

I went back to the front gate.

I issued a warning

-Provide the animals with sufficient fresh water 24 hours a day.

-To provide the animals with shelter with the protection from all weather conditions with clean bedding within 4 days.

-To untie/unchain animals immediately to roam freely inside the property.

-To contact Spca inspector Lindokuhle on 9832701371 within 24 hours.
