General Report Comments: Upon arrival I entered the property.

I met Ivan and he was happy i came to follow up.

The dog in question was roaming freely and clinically alert. Overall all the dogs observed on property appears to be in a good condition. The dogs have access to portable water and adequate shelter is provided for the dogs placed under the tree for extra shade on a hot day. The owner also set up a runner that was not intact to the dog and he explained that he will use a runner if he has a visitor.

The living environment is clean and hygienic. I also donated food to Ivan as he was running out of food.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken. Case closed
