General Report Comments: Upon arrival i met Jan. He granted me access to enter the property.

I shared a nature of complain and he claimed his dogs never attacked anyone. His neighbor was busy shouting while they were fixing the fence that when the dogs charged at her. However the dogs were stopped by his daughter.

In the front yard 2 staffis are roaming freely. The living environment is clean and hygienic. The dogs are observed in a good condition and have access to water. Shelter is provided for the dogs.

4 small breeds are kept in the house and they have access to the front yard at all times. The dogs appears to be in a good condition and clinically alart. They have access to Portable water snd the living environment is clean.

We went to the back where 2 dogs are kept (Boebuel) they appear to be in good health and clinically alart. The dogs have access to water and shelter. Water is provided for the dogs. The dogs don't appear to be aggressive.

I strongly believe the case can be closed. There is no contravention of the animal protection act 71 of 1962 and there is no further action that can be taken.
