General Report Comments: Upon arrival i hooted but no response. I pressed the intercom but no response.

I then contacted Mandisa and she came to the gate. She granted me access to enter the property and i went to check the 2 German Shephards. The dogs appeared to be in good health and clinically alert. The dogs don't seem to be terrified of the owner. The dogs have access to adequate shelter and living environment is clean.

I made it clear to Mandisa that if we should receive any evidence regarding the complain that someone is hitting the dogs we will take actions. I didn't issue any warning as i did issue one previously regarding the same allegations.
