ANIMALS IN GOOD CONDITION	No ***	Kadie has a skin problem.
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Caged - adequate space	Shelter-Waiting to be adopted.

General Report Comments: Upon arrival I hooted and shouted. I met 2 white man and 2 white ladies.

I shared the nature of complaint and they granted me access to enter the property. They recently moved in and the house was abandoned but they spoke to the owner of the house so they can occupy the space. The owner did give them permission to use the place.

There was a guy at the back of the property busy building runners for the dogs. I then conducted the inspection Samantha is in charge of the dogs and she lives with her mother.

Samantha owns 5 dogs that belongs to her. Her mother has 3 dogs that belongs to her. I then questioned Samantha why it is reported they have 20 dogs on the property and she stated that she is starting a shelter. I saw dog food and we walked around at the back when you walk through the passage one dog was observed on and it appears to be in a good condition and clinically alert. On the left hand side three dogs are kept in a big house and they are clinically alert have access to water. The living environment is clean and hygienic

We then went in the main house

The dogs are separated in different rooms there is adequate ventilation and light. There is sufficient space for the dogs and no dog displays stereotypical behavior. The dogs are just aggressive towards strangers.

I observed a dog named Kadie that appeared to have a skin problem and it was clinically alert. I further continued with the inspection and the place was not completely clean and i could hazardous objects in the house where some dogs are kept. Some kennels had feaces.

Sue Champell also arrived and i was surprised that she is helping Samantha regarding these animals.

20 animals in total were observed and there in no dog that is paralyzed.

I issued a notice to comply

1. Provide external parasite control for Kadie within 7 days, as she was observed with a skin problem.

2. Ensure rubbish or rubble is removed within 7 days as when you enter the house the place appears to be parasitic.
