General Report Comments: Upon arrival i met Lee Ann and she granted me access to enter the property .

I shared a nature of complaint and she shared that the dog was injured on sunday. I questioned her where is the dog in questioned she told me it in the backyard and i walked to the back i could see blood stains. Lee Ann didn't have an idea where the dog is and she claimed she has been looking after the dog the time it got attacked by the pitbull on property. She didn't wanna surrender any dog as she claims for her safety she need a dog on the property.

I went to the back with her and the dog in question was observed lying next to the Wendy house . Lee Ann claimed the dog is fine. I instructed her to lift the dog in question and it was lying on it blood. The dog in question appears to be in pain and suffering. I collected the dog for treatment and other dogs on the property appears to be in a good condition. The dogs have access to portable water

I issued a warning stating
Im future any animal that is sick or injured must be taken to the veterinarian for assessment and possible treatment. Failing to do so will lead into further action taken against you for being in contravention of the animals protection act 71 of 1962 and allowing your animal to suffer unnecessarily.
