General Report Comments: Upon arrival i contacted Sameer and he stated his daughter is home i can hoot. She will also call her to come out.

Tachmica came out and granted me access to enter the property . There is a small enclosure that is build in the front and it is fixed to the house. The dogs have access to the house at all times and two dogs were observed roaming freely. Portable water is provided for the dogs and the living environment is clean as no feaces were observed. Tachmica then explained that the Dashound is the naughty one he used to did the holes on the fence and pitbull will follow and that why her father decided to build the enclosure.

I strongly believe the case can be closed. There is contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
